

The UNESCO Chair on Coastal Geo-Hazard Analysis and Research Institute for Earth Sciences support PhD projects on the below subjects.

So, all PhD students who passed the general exam in Iranian universities in Tectonics and Geophysics disciplines will be welcomed.

For further information please contact UNESCO Chair Secretariat via:

uchair.cgaha@ries.ac.ir

A)
Seismic Hazard Assessment in South coast of the Caspian Sea. approach: paleoseismology and Sub-aqua paleoseismology, Morphotectonics.

Supervisors :

1) Hamid Nazari, RIES, IRAN

2)..... from host university

Advisors:

1) Jean Françoise Ritz , UM, FRANCE

2) Mohamad Mokhtari, IIEES, IRAN

B)

Fault Propagation Folding, the
Seismogenic structural model in south
Caspian shore. Approach: Active Tectonics
and Geophysics.

Supervisors:

1) Hamid Nazari, RIES, IRAN

2)..... from host university

Advisors:

1) Mehdi Mohamadi Vizheh, RIES, IRAN

2)
